FEMALE REMARKS.

husband? This iz a pumper, and yu are not required tu say 'Yes' out loud, but are expekted tew throw your eyes down onto the earth, az tho yu waz looking for a pin and reply tew the interrogatory, with a kind of draulin sigh, as the yu waz eating an oyster, juice and all, off from the half shell.

Not tew press so tender a theme until it becomes a thorn in the flesh, we will presume (tew avoid argu-ment) that yu are on the lookout for comething in the male line tew boost yu up in the up-hill ov life, and tew keep his eyes on the britching when yu begin tew go down the other side or the mountain. Let me giv yn sum small chunks ov advice how tew epot yure fewter husband :

1. The man who iz jellous ov evlittle attenshun which yu git Ne from sum other fellow, yu will find after yu are warried to him, luvs himself more than he duz you, and what yu mistook for solissitude, yn will diskover has changed into in difference. Jellusy isn't a heart disease; it is a liver complaint.

2. A mustash is not indispensable; it iz only a little more hair, and is it iz only a little more hair, and is a good deal like moss and other increasences—often duz the best on sile that won't raise anything else.

Don't forgit that those things which yu admire in a phellow before marriage yu will probably hev tew admire in a husband after, and a mistach will git tew be very weak diet.

HAVE now opened a bouling department, where I boule Pittsburg Ale.

The Ale is superior to any in the United States. M. Kenne & Co., of Leuisville, manufacturers of Mineral Water, and boulers of Pittsburg Ale. have taken the premium at the invaluation of the public line in a husband after, and a mistach will git tew be very weak diet. tarh will git tew be very weak diet after a long time.

3. If husbands could be took on trial, az Irish cooks are, two thirds or them would probably be returned, but there don't seem to be enny law for this. Therefore, girls, yu will see that after yu git a man yu her got tu keep him, even if yu loose in. eny kold vittles in the le ry him on them, once it at his. during season, and it he stallers them well, and sez he will take sure more, he iz a man who, when blue Monday cums, will wash well.

4. Don't marry a pheller who is always a tellin how his mother daz things. It is hard tow sait the men as it iz tew wean a young on-

5. If a young man can beat vin playing on a pianner, and kant hear fish-horn playing in the street without turning a back summersett or account of the musick that iz in bim. tend babe, but if yu set him hoeing out the garden, yu will find that yu have to do it yourself. A man whoze whole heft lies in musick (and not very hefty at that) ain't no better for a husband than seedlits powder but if he luvs to listen while yu sing oum gentle ballad, yu will find him mellew and not soft. But don't marry enybody for just one virtew eny quicker than yu would flop a man for jiet one fault.

6. It is one ov the most tuffest things for a female to be an old maid successfully. A grate menny her tried it and made a had job ov it .-Everyboddy seems to look upon o'd maids jist ez they do dried harbs-in the garret, handy for sickness and therefore girls, it ain't a mistake that yu should be willin' to awap yourself oph with some trew phel- Cook, Goodman & Co. for a husband. The swop is a good one, but don't swop for eny man who is respected jist bekause his father iz. You had better be an old maid for 4 thousand years, then join the Shakers, then tew buy repentaneo at this price. No woman ever made this trade who didn't git either a phool, a mean eass, or :

clown, for a husband. 7. In digging down into this subject i find that the digging grows harder the further i git. It is much easier tew inform yu who not to marry than who new, for the reason there iz more ov them.

I don't think yu will foller mi ad wise if i give it; and, therefore, will keep it, for i look apon advisor as i do upon easter ile-a mean do s to give and a mean dose to take.

But i must say one thing, girls, or spile. If you can find a bright-eved healthy and well kallasted boy, wl. looks upou poverty az rassi child looks upon wealth-who has rather sit down on the curb-stu . 1 front of the 5th avenue hatel. "to eat a ham sandwich than tew go side and run in debt for lis 1 and toothpick—one who iz are with that kind or plu & that mi takes a defeat for a victory- me a vise iz tew take him body and a ul. enare him at unst, for he is a stray treut, of a breed very -ka-e in our waters. Take him, s v. . n ! 111 oute him him as homet hi's out a tree

Courier-Journal from Labanon Kentucky, says a mob of about seventy five men took two men of Washin. ton county out of the Springlin jail. on Monday night and hung them They were charged with ray United States soldiers had ce n de tailed, at the request of the count Judge, to guard the juil, but had been withdrawn. There were four others in jail but they defended themselves. Some one of the much stuck a pistol into their cell. One of the prisoners knocked the pisto out of the assassin's hand, and with that drove off the mab.

MISCEGENATION .- Mr. Sinclair, who is styled the fighting parson, has introduced in the North Carolina House of Commans a bill legalizing marriages between blocks and whites in his county from 1865 to 1-69 in clusive. This i m seconation and social equality on the francest hasis, for if it be relit to legalize these marriages in Robinson county it is right to legalize them in ev ry other county, and if for the last four years, then for the next four in short, for all times and all coun ties and all States.
